Summary of Costs - ADA Assessment

INTRODUCTION

The purpose of this plan is to ensure that Wabash County creates reasonable, accessible paths of travel in public facilities and the public right-of-way for everyone, including people with disabilities. Wabash County has made a significant and long-term commitment to improving the accessibility of their public facilities and pedestrian facilities. The Transition Plan identifies physical barriers and improvements that should be made throughout Wabash County. This Transition Plan describes the existing policies and programs to enhance overall public facilities and pedestrian accessibility.

TRANSITION PLAN HISTORY AND OVERVIEW

Wabash County has completed an ADA Transition Plan for barriers in their buildings, facilities, public rights-of-way, and other programs including voting centers throughout the Community. Over the past several years, the County has been proactive with a Barrier Replacement Program in their existing facilities and require all new construction to meet ADA standards and guidelines. Numerous curb ramps and pedestrian friendly sidewalks have been constructed on bridge projects in pedestrian areas. Their goal has been to make Wabash County a user-friendly Community that will be adaptable for all people that live within and visit the County. This plan is to demonstrate the continued progress by Wabash County to make pedestrian facilities and buildings reasonably accessible for all persons.

LEGAL REQUIREMENTS

The federal legislation known as the American with Disabilities Act (ADA), enacted on July 26, 1990, provides comprehensive civil rights protections to persons with disabilities in the areas of employment, state and local government services, and access to public accommodations, transportation, and telecommunications.

Title II specifically applies to “public entities” (state and local governments) and the programs, services, and activities they deliver. Title II Article 8 requires public entities to take several steps designed to achieve compliance. The plan shall, at a minimum include:

1. A list of the physical barriers in a public entity’s facilities that limit the accessibility of its programs, activities, or services to individuals with disabilities.
2. A detailed outline of the methods to be utilized to remove these barriers and make the facilities accessible.
3. The schedule for taking the necessary steps to achieve compliance with Title II.
4. The name of the official responsible for the plan’s implementation.

Transition Plans provide a method for a public entity to schedule and implement ADA required improvements to existing buildings, streets and sidewalks. Before a Transition Plan can be developed, an inventory of the current buildings, curb ramps and sidewalks must be developed.

IDENTIFIED OBSTACLES TO PUBLIC FACILITIES & RIGHT-OF-WAY

Wabash County has utilized a two-tiered system to identify and assess obstacles in the public right of way: a Preliminary Evaluation and a Detailed Evaluation. Wabash County utilized only the detailed evaluation process to identify and assess obstacles within public buildings. The barriers used in the evaluations are based on the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (ADA Guidelines) from the U.S. Architectural and Transportation Barriers Compliance Board.

PRELIMINARY EVALUTION

The first tier is a Preliminary Evaluation of the intersections. The purpose of this evaluation is to determine which intersections are obviously non-compliant to the ADA Guidelines and to get a comprehensive overview of the complete pedestrian network. The preliminary inventory evaluates three (3) criteria for curb ramps and three (3) criteria for sidewalks:

Curb Ramps

1. Is there a curb ramp?
2. Does the curb ramp have a color contrasting detectable warning?
3. Does the curb ramp have a clear landing at the top of the ramp?

Sidewalks

1. Is there a continuous clear space for pedestrian access?
2. Does the sidewalk appear to provide adequate passing zones?
3. Does the sidewalk appear to be smooth without grade breaks?

The Preliminary Evaluation utilizes aerial and street-level photography to view each intersection. The criteria used can be seen on these aerials and are key design components to determine ADA compliance. If the curb ramps and sidewalks do not meet the criteria, then that intersection does not need further evaluation because it is obviously non-compliant with the ADA Guidelines. If it did meet the criteria, then that intersection would be "potentially compliant" and would need a Detailed Evaluation to determine if it fully complies with the ADA Guidelines.

DETAILED EVALUATION

The second tier is a Detailed Evaluation of the intersections identified as "potentially compliant" during the Preliminary Evaluation. This requires fieldwork at the intersection and measuring of specific physical attributes, such as width, running slope, and gaps in the curb ramp or sidewalk, to determine compliance to the identified ADA barriers. For a description of the identified barriers see **Attachment A-1**. When the data is gathered, it is recorded into an intersection database¹. The result

¹ The database is quite large and is constantly updated; it is not feasible for it to be included in the text of this ADA Transition Plan. The database may be made available for public review by advanced written request to the ADA Coordinator.

from this evaluation is a detailed understanding of the ADA barriers at that intersection. It should be noted that Wabash County has the responsibility to provide an inventory and assessment for all unincorporated towns within Wabash County.

This process was also used to identify obstacles and barriers within public buildings and facilities. This required onsite inspections of each building or facility and measurements of specific physical attributes, such as door and corridor widths, open spaces, restrooms, drinking fountains, elevators, windows, and other elements to determine compliance to the identified ADA barriers. For a description of the identified barriers see **Attachment A-1**. When the data is gathered, it is recorded into a building database¹. The result from this evaluation is a detailed understanding of the ADA barriers of that building.

METHOD TO REMOVING BARRIERS - POLICIES & PRIORITIES

Wabash County utilizes many different approaches in removing barriers in public buildings and rights-of-way, including proactively identifying and eliminating the barrier, responding to public complaints, and ensuring the appropriate design and build-out of new construction following the most recent design guidelines.

BARRIER REMOVAL PRIORITIES

Wabash County bases barrier removal priorities on two factors: location and the accessibility condition.

Location

According to the *Accessible Rights-of-Way: A Design Guide*, “the DOJ regulation imposes a specific construction requirement...specifies a priority for locating (curb ramps) at: State and local government offices and facilities; transportation; places of public accommodation; places of employment; and other locations.” Following this guidance, the County identified its location priority as follows:

1. Intersections serving government facilities, schools, and medical facilities
2. Intersections serving commercial and employment centers, and
3. Intersections serving other areas.

Accessibility Condition

Using the data from the Preliminary Evaluation and the Detailed Evaluation, an accessibility condition can be determined.

PUBLIC COMPLAINT PROCESS

The public complaint process is an integral part of the Transition Plan. Public complaints or requests may often drive the prioritization of improvements. [To file a complaint](#) or a request regarding

accessibility of a facility, sidewalk, or curb ramp, contact the ADA Coordinator in writing and describe the issue in detail, including the location. The ADA Coordinator will route this information to the appropriate Wabash County department for inspection and possible action. That department will then respond to the ADA Coordinator with its findings, and the ADA Coordinator will record the formal response and reply to the complainant/requestor. All complaints or requests will be kept on file and will include the response. Any complaint must be both written and signed to be complete. Verbal complaints must be reduced to writing and provided to the Complainant for confirmation, review, and signature before processing. A "Title VI/ADA Complaint Form" is available for download from Wabash County's website at: www.wabashcounty.in.gov under "ADA/Title VI Information". In addition, **Attachment B** is a copy of Wabash County's public Grievance Procedure for Pedestrian Facilities in the Public Right-of-Way.

NEW CONSTRUCTION & ALTERATIONS

To ensure the correct design of curb ramps, sidewalks, and crosswalks in new construction and alterations, Wabash County has adopted the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (see **Attachment B** for a copy of the resolution). Whenever there is an intersection improvement project or new construction project, any affected curb ramps, sidewalks, and crosswalks will be rebuilt to these ADA design guidelines, where feasible and reasonable.

SCHEDULE

As opportunity allows, Wabash County will make efforts to improve the ADA Accessibility of pedestrian facilities in the public right-of-way. As stated in the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way*, "compliance is required to the extent practicable within the scope of the project." There will be times when it is technically infeasible to provide technical compliance: for example, if clear space at the top of the ramp is obstructed by a building or the slope of a hill is so extreme as to prevent a reasonable slope for a ramp in both directions. The inventory process may not account for such situations and could show a high-priority rating when all feasible actions have been taken.

Additionally, given a program as broad and comprehensive as some areas within Wabash County's pedestrian network, Wabash County will follow the concept of Program Access under Title II of the ADA. Program Access does not necessarily require a public entity to make each of its existing facilities accessible to and usable by individuals with disabilities if the program is accessible. Under this concept, Wabash County may choose not to install a sidewalk at some locations (or to install them as a lower priority later) if a reasonable path of travel is available even without the sidewalk.

RESPONSIBLE INDIVIDUAL

The official responsible for the implementation of Wabash County's ADA Transition Plan for the buildings and pedestrian facilities in the public right-of-way is:

Jim Dils
Title VI/ADA Coordinator
1 West Hill Street, Ste. 202
Wabash, Indiana 46992
Phone: 260-563-0661 ext.1290
FAX: 260-563-5898
jdils@wabashcounty.in.gov

PUBLIC INPUT

Wabash County provided opportunities for individuals to comment on this Transition Plan, which included:

- Document made available in ADA Coordinator's Office
- Document made available on Wabash County's website
- Open house/presentation at a public meeting held on October 21, 2013

Wabash County published legal notices in the major newspaper(s), Plain Dealer which started on October 22, 2013, and in The Paper on October 23, 2013. The legal notices announced the availability of the draft Transition Plan at the local public library with easy public access. These notices also provided instructions regarding the timetable for comments and where to send them. Public comments were accepted for a period of no less than 30 days and ended on December 19, 2013.

Formal adoption of the original Transition Plan took place on February 3, 2014. It is available on the web and/or by written formal request to the ADA Coordinator.

ATTACHMENT A - 1

ADA GUIDELINES USED IN DETAILED EVALUATIONS;

- **EVALUATION FORM – SIDEWALKS**
- **EVALUATION FORM – INTERSECTIONS & CROSSWALKS**
- **EVALUATION FORM – BRIDGES**
- **EVALUATION CRITERIA - PUBLIC BUILDINGS & FACILITIES**

1) ADA Guidelines Used in Detailed Evaluations

Curb Ramps

In evaluating the accessibility of existing curb ramps, the following factors were considered:

1. Is there a curb ramp?
2. Is there a curb ramp where a sidewalk crosses a street?
3. What type of curb ramp?
 - a. Perpendicular curb ramp
 - b. Parallel curb ramp
 - c. Blended transitions
4. Is the width of the curb ramp at least 4 feet wide (excluding flares)?
5. Are there detectable warnings properly installed where a curb ramp or blended transition connects to a street?
6. Is the running slope greater than 5% but less than 8.3% (blended transition 5% maximum)?
7. Is the cross slope less than 1%?
8. Is the landing a minimum of 4 feet x 4 feet?
9. Is the surface of the curb ramp or blended transition firm, stable, and slip resistant and clear of gratings, access covers, and other appurtenances?
10. Is the grade break at the top and bottom of the ramp flush and not located on the surface of the curb ramp, landing, or gutter areas?
11. Is the counter slope of the gutter or street at the foot of the curb ramp less than 5%?
12. Is the clear space beyond the curb face at least 4' x 4'?
13. If the curb ramp is perpendicular, is the slope of the flared sides less than 10% where a pedestrian path crosses the curb ramp or if the sides are returned, are they protected from cross travel?

Sidewalks

In evaluating the accessibility of existing sidewalks, the following factors were considered:

1. Is there a sidewalk at each corner?
2. Is there at least 4 feet of continuous and unobstructed clear width of a sidewalk (excluding the curb width)?

3. If the continuous width is less than 5 feet, are the passing spaces at least every 100 feet along the sidewalk that are 5 feet wide or greater?
4. Is the cross slope of the sidewalk less than 1%?
5. Where the sidewalk is adjacent to the street, does the grade of the sidewalk not exceed the general grade of the street?
6. Is the surface of the sidewalk firm, stable, and slip resistant?
7. Are any gaps in the surface less than $\frac{1}{2}$ inch?
8. Is the sidewalk clear of grates or if there is a grate?
 - a. Are the openings no more than $\frac{1}{2}$ inch wide?
 - b. Do the elongated openings run perpendicular to the direction of travel?
9. Is the sidewalk clear of protruding objects? If there is a protruding object is:
 - a. the leading edge of that object less than 17 inch and more than 80 inch above the ground, or
 - b. the protrusion less than 4 inches into the travel path of the sidewalk, or
 - c. a barrier is provided no more than 17 inches from the ground where the vertical clearance is less than 80 inches.

Crosswalks

In evaluating the accessibility of existing crosswalks, the following factors were considered:

1. Is there a crosswalk that connects two sidewalks across a street?
2. Is the width of the marked crosswalk at least 6 feet?
3. Does the cross slope of the crosswalk meet the following guidelines?
 - a. If the crosswalk is crossing a street with a stop control, is the cross slope less than 1%?
 - b. If the crosswalk is crossing a street without a stop control, is the cross slope less than 5%?
4. Is the running slope of the crosswalk less than 5%?
5. If the crosswalk crosses a median, is the length of the median at least 6 feet and does it contain detectable warnings located at curb line or edge of the roadway?
6. If the intersection signalized, does it have a pedestrian signal, if so, does the pedestrian signal phase allow enough time for a walking speed of 3.5 ft/sec?

Public Buildings & Facilities

In evaluating the accessibility of public buildings & facilities, the following factors were considered:

1. Is there a minimum of 36" width for doorways and corridors?
2. Are light switches a maximum of 48" above finished floor?
3. Is there a handrail at 36" above finished level for stairs or ramps?
4. If no ramps are present for stairs, is a wheel-chair lift present?
5. Do accessible restrooms have compliant grab bars, toilets, etc?
6. Are doors compliant for hardware, swing paths, etc.?
7. Are drinking fountain spouts between 38" and 42" above finished floor?

8. Are signs compliant for height, color, etc.?
9. Are parking spaces compliant for dimensions, number, markings, slopes, etc.?
10. Are there any uneven surfaces with greater than $\frac{1}{2}$ " gaps?

NOTICE UNDER THE AMERICANS WITH DISABILITIES ACT

In Accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (“ADA”), Wabash County, Indiana will not discriminate against qualified individuals with disabilities based on a disability in its services, programs, or activities.

Employment: Wabash County does not discriminate based on a disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.

Effective Communication: Wabash County will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in all Wabash County’s programs, services, and activities.

Modifications to Policies and Procedures: Wabash County will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all its programs, services, and activities.

Anyone who requires an auxiliary aid or service for effective communications, or a modification of policies and programs to participate in a program, service, or activity of Wabash County, should contact Jim Dils, Title VI/ADA Coordinator, 1 West Hill Street, Suite 202, Wabash, Indiana 46992, (260) 563-0661 ext. 1290; jdils@wabashcounty.in.gov, as soon as possible but no later than 48 hours before the scheduled event.

The Title VI/ADA does not require Wabash County to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

Complaints that a person, service, or activity of Wabash County is not accessible to persons with disabilities should be directed to Jim Dils, Title VI/ADA Coordinator, 1 West Hill Street, Suite 202, Wabash, Indiana 46992, (260) 563-0661 ext. 1290; jdils@wabashcounty.in.gov. See Wabash County’s Grievance Procedure.

Wabash County will not place a surcharge on a particular individual with a disability, or any group of individuals with disabilities, to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

RESOLUTION # 2012-PS-12

A RESOLUTION OF THE WABASH COUNTY COMMISSIONERS ADOPTING AN ADA TRANSITION PLAN AND ESTABLISHING AN ADA COORDINATOR FOR WABASH COUNTY, INDIANA

Wabash County, Indiana recognizes its obligation to comply with the requirements of the Americans with Disabilities Act ("ADA").

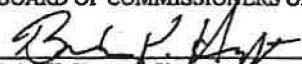

The County desires to take necessary steps in order to insure such compliance within or upon public facilities and improvements, as well as its services, programs and activities.

NOW, THEREFORE, BE IT RESOLVED:

1. That the ADA Transition Plan attached hereto is adopted.
2. That the Wabash County Coordinator shall serve as the County's ADA Coordinator.
3. The ADA Coordinator is hereby directed to:
 - 3.1. Comply with the ADA Transition Plan,
 - 3.2. Review County facilities and improvements to assess compliance with the ADA,
 - 3.3. Notify the general public concerning relevant information regarding Title II of the ADA, and how it applies to the programs, services, facilities, improvements and activities of Wabash County, Indiana,
 - 3.4. Seek public input regarding the needs of citizens with disabilities, and
 - 3.5. Develop a reasonable transition plan or plans to be implemented to address issues of need or non-compliance, based upon prioritizing needs and the county's ability to finance such transition plan or plans.

Adopted this 3rd day of December, 2012.

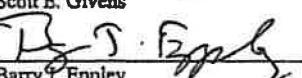

BOARD OF COMMISSIONERS OF WABASH COUNTY

Brian E. Hauper, Chairman

Scott E. Givens

ATTEST:

Jane Kidgeway, Wabash County Auditor

ADA TRANSITION PLAN
WABASH COUNTY, INDIANA
ADOPTED DECEMBER 3, 2012

INTRODUCTION

Wabash County, Indiana, recognizes its legal obligation to comply with the federally enacted Americans with Disabilities Act of 1990, as amended ("ADA"), and herein establishes a transition plan to ensure compliance with Title II of this federal law to avoid discrimination against its citizens who have disabilities, by identifying barriers to access both physical and non-physical, by identifying how and when barriers are to be removed, by providing a means to address complaints of discrimination, by encouraging public input to assess, by addressing and meeting access needs, and by establishing periodic reviews of the plan to monitor progress and compliance.

COMPLAINT/GRIEVANCE PROCESS

The ADA Coordinator shall be responsible for coordinating the efforts of Wabash County, Indiana, to comply with Title II of the ADA and shall be responsible for investigating complaints that the County has violated Title II.

In the event such a complaint is lodged, the complaining party shall be obligated to give Wabash County, Indiana, written notice of the alleged discrimination by delivering such written complaint in person, or by first class U.S. mail, to the ADA Coordinator, Wabash County Courthouse, 1 W. Hill Street, Wabash, Indiana 46992.

The complaint should contain details related to the alleged discrimination, as well as the full legal name, address and telephone number of the complainant.

Any complaint should be filed as soon as possible after the incident giving rise to the complaint, but in no event later than sixty (60) calendar days after such incident.

Upon receipt of the complaint, the ADA Coordinator shall investigate the allegations contained therein, and, within fifteen (15) calendar days, meet with the complainant to discuss the complaint and possible resolution thereof. Within fifteen (15) calendar days thereafter, the ADA Coordinator shall issue his findings and recommendations to resolve the complaint in writing.

If the ADA Coordinator's findings and recommendations do not resolve the complaint to the complainant's satisfaction, the complainant may, within fifteen (15) calendar days after receipt of the ADA Coordinator's findings and recommendations, appeal to the Wabash County Commissioners, Wabash County Courthouse, 1 W. Hill Street, Room 102, Wabash, Indiana, 46992. Within fifteen (15) calendar days after receipt of the appeal, the Wabash County Commissioners, or their designee, shall meet with the complainant to discuss the complaint and possible resolution. Within fifteen (15) calendar days thereafter, the Wabash County Commissioners shall issue their findings and recommendations. All documents related to the complaint shall be retained by the Commissioners for not fewer than three (3) years after the complaint is resolved.

DESIGN STANDARDS – BUILDINGS/SIDEWALKS

Buildings. Newly constructed County buildings or County buildings which are renovated shall meet the standards of handicap accessibility in accordance with the Indiana Building Code. This may include the use of street level entrances or graded sidewalks in lieu of steps to reach an entrance; shall require sufficiently wide doorways, hallways and bathrooms to accommodate individuals in wheelchairs; shall require automatic doors or electronic means of requesting assistance, if needed; shall require an elevator which allows the transportation of a person in a wheelchair from one floor level to another in a multi-story building; and shall require the use of tactile messages to assist those who are sight impaired. Reasonable accommodations shall also be made, as needed, to assist the hearing impaired or to assist citizens with other disabilities to ensure access to county offices and services.

Sidewalks. All sidewalk curbs shall, at street intersections, be constructed in accordance with INDOT regulations and standards to ensure color warning of an approach to a street, tactile warning of approach to a street and contouring of the curb to a flush level with the street pavement.

PLAN TO REMOVE BARRIERS

In an effort to remove barriers to such things as buildings, offices, personnel, services, employment opportunities, housing and streets and sidewalks, the County shall rely upon the Indiana Building Code in the construction or renovation of buildings. In addition, the County encourages property owners who are not required to comply with ADA standards to voluntarily do so or make reasonable accommodations for individuals with handicaps.

The County shall make reasonable efforts to educate the public regarding rights under the ADA and shall encourage various local institutions and agencies to implement rules and regulations designed to prevent discrimination when performing services, when offering job opportunities or when offering housing.

REVIEW AND EVALUATION

In January of each year, the Wabash County Commissioners shall meet with the ADA Coordinator to review the County's efforts to comply with the ADA and to implement the foregoing Plan. Progress shall be noted and the Plan shall be evaluated for the purpose of determining its effectiveness. Modifications to the Plan may be recommended by the Wabash County Commissioners. The Commissioners and the ADA Coordinator shall also review prioritization of repairs and modifications for the upcoming year, and shall review with the Council funding sources and availability of funding to determine the number of modification which can be brought into compliance with ADA standards.

PUBLIC INVOLVEMENT OPPORTUNITIES

The general public is encouraged to participate in identifying needs or barriers to accessibility. This may be done by contacting the ADA Coordinator, 1 W. Hill Street, Room 102, Wabash County Courthouse, Wabash, IN 46992; telephone number (260) 563-0661, extension 1290.

Notice of a need or barrier may be communicated in person or by mail. In addition, the general public is invited to attend any meeting of the Wabash County Commissioners to request a need to be addressed or to seek relief from a barrier to access. The Wabash County Commissioners are scheduled to meet each Monday at 9:00 a.m., Room 201, the Wabash County Courthouse, 1 W. Hill Street, Wabash, IN 46992.

Notice of this Plan and the Notice under The Americans with Disabilities Act created by the U.S. Department of Justice shall be published on the County's website, www.wabashcounty.in.gov, and shall also be provided to local news media.
